

TAEHYEON KIM

Undergraduate Researcher · Dept. of AI Engineering, Chosun University
taehyeon@chosun.ac.kr | github.com/taehyeon03 | LinkedIn | Google Scholar | South Korea

EDUCATION

Chosun University

B.Eng. in Artificial Intelligence Engineering · 3rd Year · 2023 – Present

Relevant Coursework: Natural Language Processing, Deep Learning

SKILLS

Python · Advanced

PyTorch · Intermediate

Git · Intermediate

AI Agent · Basic

Linux · Basic

PUBLICATIONS

2026

Pedagogical Alignment for Vision-Language-Action Models: A Comprehensive Framework for Data, Architecture, and Evaluation in Education

U Lee, J Jeong, S Shin, H Park, J Moon, Y Song, J Shim, JH Lee, Y Noh, S Choi, A Kim, **TH Kim**, K Joo, T Kim, G Lee
arXiv preprint arXiv:2601.13876

AWARDS

Best Prize

8th AI ROBOTICS Convergence Idea Competition

Chosun University | Jan. 2026

Bronze Prize

Dual-arm Robot Physical AI Hackathon Competition

Hansung University | Feb. 2026

PROJECTS

PEFT-based Fine-tuning Research

2026 – Present

Research on Parameter-Efficient Fine-Tuning (PEFT) methods for large-scale language and vision models.

Tech Stack: Python, PyTorch · Status: *In Progress*

EXPERIENCE

Chosun Algorithm Club (CAC)

Chosun University

Member of CHOSUN ALGORITHM CLUB — competitive programming and algorithm study

CAREER GOAL

- › Computer Vision Engineer
- › Large Language Model Researcher

› Physical AI / Robotics Developer
